

Artwork Guidelines.

Document Size.

Create your original 1:1 scale.

Color space / Color management

We use Prepress 3 (Europe).

Flat colors are set as Pantone.

Images, Adobe RGB (1998) embed the profile.

Resolution

Document Size 2445x2394 mm min. 60- 80 DPI

Export a printable PDF (high resolution)

Document Size 2445x2394 mm

Create your document as a one page.

Compression, do not downsample, automatic (JPEG), maximum image quality.

Marks and bleeds, no crop marks, no bleed

Output, convert to the destination profile Adobe RGB (1998) include the profile. **Export.**

Indesign (open document)

If you send an open document, be sure to "gather" (packaging) the document, so that all links, fonts, low resolution pdf and other instructions are collected in one folder.

Illustrator (AI)/EPS

Save the document in the same manner as for InDesign. If you are saving an EPS file,

make sure that all written

text is **contoured**, and as far as possible that flat colors are defined as **Pantone**.

Send files

Files up to 10 MB can be sent by mail to artwork@spaceproduction.se

Larger files than 10 MB, use [wetansfer](#)

If you send more than one file, always compress the files in to one .zip file.

Mark the transfer with:

- DSM
- Your company
- Stand number
